

각종학술대회 안내

First East-Asian Polymer Conference

Shanghai, China October 11-15, 1995

— Scientific Program

EAPC-1 is a Multi-topic International Conference on Macromolecular Science with main topics including :

1. Polymer synthesis and reactions
2. Polymer characterization, structure and properties
3. Functional polymers and polymeric materials

— Correspondence

Prof. Shoukuan Fu, EAPC-1, Macromolecular Sci. Dept., Fudan University, Shanghai 200433, China

Tel : 0086-21-5346405, 5492222 ext. 2385

Fax : 0086-21-5493232

20th Australian Polymer Symposium

North Adelaide, South Australia 5th-9th February 1995

— Scientific Program

1. Radiation Curing and Associated Testing (February 9, 1995)

- Chemistry of radiation curing
- Aspects of coating and initiator formulation
- Coating formulation and testing
- Equipment and applications

2. Networks and Network Blends (February 5, 1995)

— Correspondence (1)

Dr. Wayne D. Cook, Materials Engineering Dept., Monash University, Clayton Vic3168

Tel : 03-905-4926, Fax : 03-905-4940

— Correspondence (2)

Prof. Jack Garnett, School of Chemical Engineering and Industrial Chemistry, University of N. S. W., Sydney NSW 2052

Dr. Michael Pittolo, Sola International Holdings Research Centre, Lonsdale South Australia

Tel : 08-326-0100

4th Pacific Polymer Conference

Hawaii, 12-16 December 1995

— Scientific Program

- | | |
|--|----------------------------------|
| 1. Biorelated Polymers | 6. Synthesis Functional Polymers |
| 2. High Performance Materials | 7. Electronic/Non Linear Optics |
| 3. Nanostructures | 8. Adhesives |
| 4. New Techniques for Polymer Analysis | 9. Degradation of Polymers |
| 5. Polymer Architectures | |

— Correspondence

Prof. Ray Ottenbrite, Polymer Chemistry Dept., Virginia Commonwealth University, Richmond,

Virginia 23284, USA Fax : (+1)804-367-8588
